

CURRICULUM VITAE

Stan D. Phillips, MD

EDUCATION

Otolaryngology/Head and Neck Surgery Residency, University of Maryland, July 1993-June 1997

General Surgery Internship, University of Maryland, July 1992 - June 1993

Post-Doctorate Fellowship, Johns Hopkins University School of Medicine
Department of Otolaryngology - Head and Neck Surgery
Preceptor: Douglas Mattox, MD
June 1991 - June 1992

Medical School, East Carolina University, 1987 - 1991

University of North Carolina - Chapel Hill 1983 – 1985 Degree: Biology

HONORS & AWARDS

Johns Hopkins University School of Medicine
Travel Award, Association for Research in Otolaryngology
East Carolina University School of Medicine
Rivers Scholarship for International Studies - 1990
University of North Carolina, Chapel Hill
Alpha Epsilon Delta - Premedical Honors
Psi Eta Sigma - Freshman Honors
Epsilon Pi Eta - Sophomore Honors
Presidents List

RESEARCH

Dopamine receptors in the rat olfactory bulb.
University of Maryland School of Medicine 1995
Principal Investigator: Mike Shipley, PhD

Selective vestibular ablation by application of absorbable streptomycin pellets to guinea pig round window.

Johns Hopkins School of Medicine 1992
Principal Investigator: Leonard Proctor, MD

Hearing Loss from Polyamine Synthesis Inhibition.
Johns Hopkins School of Medicine, Department of Otolaryngology 1991 – 1992
Principal Investigator: Douglas Mattox, MD

Middle Ear Ossicles in the Rat. Investigation of Size Variation Between Newborns and Adults.

East Carolina University 1991

Preceptor: Loren Bartels, MD

Performance of Lumbar Laminectomies on the Over 75 Age Group.

East Carolina University 1990

Crash Victims and Report of Seat Belt Use to the Officer: A Review of Emergency Room Data Compared to Traffic Reports.

University of North Carolina 1988 - 1990

Preceptor: Alfred Hanse, MD

PRESENTATIONS

Dopamine (D2) Receptor Activation Blocks Sensory Evoked Excitation of Rat Mitral Cells in Vitro.

Society of Neuroscience.

San Diego, California, November 15, 1995.

Electron Microscopic Findings in Cochlear Hair Cells of Difluoromethylornithine (DFMO) Treated Guinea Pigs.

The Johns Hopkins University Center for Hearing Sciences.

Baltimore, Maryland, January 02, 1992.

Aids in the College Community.

East Carolina University Undergraduate Students

Greenville, North Carolina, December 05, 1998.

TEACHING

Johns Hopkins University of Medicine

Neuroscience Course

Laboratory Instructor

Winter Quarter 1992

Johns Hopkins Continuing Education

Instructor: Medical Terminology/Anatomy

Fall Term, 1991

Spring Term, 1992

ABSTRACTS/ POSTERS:

Zimmer, L., Phillips, S., Ennis, M., Shipley, M.

Dopamine (D2) Receptor Activation Blocks Sensory Evoked Excitation of Rat Mitral Cells in Vitro.

Society for Neuroscience. 1995.

Phillips, S., Flowers, B., Zagardo, M.
The Glomus Jugulare That Wasn't; An Internal Jugular Vein Thrombosis Presenting as a
Globus Jugular Tumor.
Presented as poster at the Otolaryngology Academy Meeting,
San Diego, 1994.

Gates, T., Phillips, S., Pongstaporn, T., Brownell, W., Mattox, D.
Morphological Changes in the Vestibular Labyrinth After DFMO Administration.
Presented as poster at ARO Winter Conference February 1993

Phillips, S., Jimenez, R., Pongstaporn, K., Brownell, W., Mattox, D.
Electron Microscope Findings in Cochlear Hair Cells of Difluoromethylornithine
(DFMO) Treated Guinea Pigs.
Presented as poster at ARO Winter Conference February 1992

Phillips, S., Lee, S., Jones, D.
Lumbar Laminectomies in Patients Over 75 Years of Age: A Review of Post Operative
Results.

PUBLICATIONS

Book Chapters

Phillips, S., Mattox, D.:
Complications in Micro vascular Surgery. In Complications in Head and Neck Surgery.
Edited by David Eisele. 1992 Chapter 81, pp756-765.

Krasna, M., Phillips, S.:
Endoscopic staging of Esophageal and Lung Cancer. In Endoscopic Surgery. In Press.

Journal Articles

Krasna, M., Phillips, S., Biedlingmaier, J., Gray, W.
The Gastric pull-up procedure: Method of Closing High Surgical Defects.
Annals of Thoracic Surgery. 1995; 60:1821-3

Phillips, S., Corio, R., Brem, H., Mattox, D.
Ameloblastoma of the Mandible With Intra cranial Metastasis: A Case Study.
Archives of Otolaryngology-Head and Neck Surgery, 1993; 18: 861-863

San-Galli, F., Leman, C., Kien, P., Khazaal, J., Phillips, S., Guerin, J.
Cerebral Arterial Fenestrations Associated with Intra cranial Saccular Aneurysms.
Neurosurgery. 30 (2) : 279-283, 1992.

INTERESTS

Snow skiing, Tennis, Golf, Soccer, Traveling, Photography, Physical Fitness.

SPECIAL QUALIFICATIONS:

Fluent in French

ACLS Certified

ATLS Certified

Board Certified Otolaryngology
